

Local Business Offers Eco-Friendly Cleaning Approach

A new mobile cleaning service operating in the Trentside region offers an alternative to chemical-based solutions. Dave Smith has converted his van with a stainless steel cleaning tank which cleans appliances with steam leaving a safe, clean appliance and water waste that can be easily recycled back into the water system. The hybrid stainless steel tank heats to a temperature off 95 degrees combined with a bio product to remove all carbon deposits.

"We offer a personalised, professional oven cleaning and steam cleaning service," says Dave "we also have prices to suit all budgets whether you need a one-off service, discounted regular cleans or bulk package deals."

As well as ovens DCS can clean your microwaves and fridges, dishwashers and washing machines, decking and pathways and much more.

News from Thorney

LIBRARY VAN DATES

April 16th, May 14th, June 11th, July 9th (every four weeks)
Church is open from 10.30 – 12 for coffee and a chat. The Library Van calls from about 11.15 to 11.40. There is a Stall with a variety of items for sale and a warm welcome. Do come!

NEW WEBSITE!! EXCITING NEWS!!

Because Thorney is combining with Harby and Wigsley to produce a Community Led Plan, a website has been set up for all to use. This will be the place in future to look for events and all kinds of information. If you would like to add anything get in touch with Ed Whittaker. The website is:
www.harbythorneywigsley.co.uk
Have a look and let us know what you think!

VILLAGE NEWSLETTER

As well as having the website together we are to join with the Harby and Wigsley Newsletter within the next few months. This Newsletter is published bi-monthly, but in between the Trentside Links. If you would like to advertise in this Newsletter, please let me know in the first instance and I will get further information to you. So, very soon there will be many ways of communication and perhaps less need for pushing leaflets through doors! Hooray!
